

The Zoé Vallé Library

One Legacy. Limitless Connections

For nearly 100 years, the Zoé Vallé Library has been a place for Chester residents to read, learn, and connect. When Zoé's family gifted her home to the community as a public library, they created a space to belong - and that spirit continues today.

As the library begins its next chapter, the focus remains on honoring its history, listening to community voices, and supporting a welcoming public space that will serve generations to come.

Same Heart. Bigger Reach

Working with the Village of Chester Commission, South Shore Public Libraries is excited to support the Zoé Vallé Library.

This means the library remains rooted in Chester, while opening the door to more services - a larger collection, programming, technology, and experienced staff.

This is an evolving partnership, informed by **you**, the community. What do you want to see? Possibilities include:

**Professionally trained
information staff**

**Borrow from over 1 million
items across Nova Scotia**

**eBooks and audiobooks
through Libby**

Honouring a Century of Stories - and Opening the Door to More

South Shore Public Libraries will review and care for the collection with respect for the original vision, Chester's history, and community roots.

The Zoé Vallé Library is a public space now and always. At the heart of our work is a sure commitment: honor the past, support the present, and thoughtfully safeguard the future.
